

AMST-AVIATION B.V.

BUILDING CONFIDENCE.

AMST-Aviation B.V. is a growing, young and dynamic company with a global reach. We design, develop and assemble state of the art reliable flight simulation products, including Full Flight Simulators (e.g. Airbus A320, Boeing B737) and immersive environments tailored towards the civil aviation market. To expand our activities, we are looking for a:

Sr. Electrical Engineer

Fulltime - 38 hours p/w

Your Tasks:

- Responsible for the development of all electric circuits in the simulator
- Writing the requirements for the electrical systems, design and document them and assisting the assembly department during the build
- Ensuring quality, efficiency, and on-time delivery of the Electrical Engineering tasks
- Developing, reviewing and updating of electrical design plans and work schedules
- Maintaining and analysing existing engineering processes and discussing improvement initiatives
- Establishing relationships with clients, vendors, suppliers, other professionals, and expanding networks

Your Profile:

- A Bachelor's degree in Electrical Engineering or Industrial Automation
- 5 years of work experience in a similar position
- Strong communication skills in English (verbal & written), Dutch is a plus
- Willing to travel regularly for business
- Experience with I/O systems, power supplies, power distribution and safety regulations
- Experience with Excel and Visio
- Experience with Eplan is preferable
- Interested in the aviation and flight simulation

We Offer:

- An interesting opportunity within a small, dedicated team in an high-tech environment
- An open cooperative working environment that offers a good work-life balance and a path for personal development
- Good work conditions, including a 38h work week with flexible start and finish times and a competitive salary
