

AMST-AVIATION B.V.

BUILDING CONFIDENCE.

AMST-Aviation B.V. is a growing, young and dynamic company with a global reach. We design, develop and assemble state of the art reliable flight simulation products, including Full Flight Simulators (e.g. Airbus A320, Boeing B737) and immersive environments tailored towards the civil aviation market. To expand our activities, we are looking for a:

Qt/QML Developer

Fulltime - 38 hours p/w

Your Tasks:

- Develop and maintain the graphic user interfaces used in training on our devices; The instructor operating station, lesson planner, and debrief system.
- Support the backend architecture required for the GUIs, this is a full stack development role.
- Coordinate with product owners to design the GUIs according to customer needs.

Your Profile:

- Bachelor or master's degree in engineering.
- Experience with user interface (UI) design in Qt5 / Qt6.
- Understanding of user experience concepts (UX).
- Comfortable in a cross platform environment (Linux, Windows, Android).
- Familiar with software version control (Git) and deployment practices.
- Proficiency with CMake and/or Python is an asset.

We Offer:

- An interesting opportunity within a small, dedicated team in a high-tech environment
- An open cooperative working environment that offers a good work-life balance and a path for personal development
- Good working conditions including a 38h work week with flexible start and finish times, the possibility to work up to 2 days a week from home, a pension scheme, commuting allowance, and a competitive salary.
