

AMST-AVIATION B.V.

BUILDING CONFIDENCE.

AMST-Aviation B.V. is a growing, young and dynamic company with a global reach. We design, develop and assemble state of the art reliable flight simulation products, including Full Flight Simulators (e.g. Airbus A320, Boeing B737) and immersive environments tailored towards the civil aviation market. To expand our activities, we are looking for a:

Electrical Assembler

Fulltime - 38 hours p/w

Your Tasks:

- Ensure that all electrical components are build, tested and assembled on time.
- Constructing and connecting the power supply, constructing I/O and Ethernet cabling.
- Checking, testing and assembling of parts, panels and instruments.
- Cabling, testing and connecting of mainly cockpit instruments.
- Cabling of facilities, such as air conditioning, lighting, audio and video.

Your Profile:

- A completed education at mbo level in relevant field.
- 3 years of experience in the electrical engineering field.
- You work in a structured and precise manner.
- You are able to read electrical drawings/schematics.
- Affinity with precision mechanical work is an advantage.
- You have good communication skills in Dutch and English.
- You recognize yourself in the following characteristics:
Team player, involved, flexible and resistant to stress.

We Offer:

- An interesting opportunity within a small, dedicated team in a high-tech environment.
- Varied, technically challenging work on a great product.
- Good working conditions, including a 38h working week, a good work-life balance and a competitive salary.
- The work will usually take place at our facility in Nieuw-Vennep, but we also expect you to be regularly present at the (foreign) customer's location, where the simulators are built up and maintained.
