

AMST-AVIATION B.V.

# BUILDING CONFIDENCE.

AMST-Aviation B.V. is a growing, young and dynamic company with a global reach. We design, develop and assemble state of the art reliable flight simulation products, including Full Flight Simulators (e.g. Airbus A320, Boeing B737) and immersive environments tailored towards the civil aviation market. To expand our activities, we are looking for a:

## Head of Hardware Engineering

Fulltime - 38 hours p/w

### Your Tasks:

- Responsible for all hardware engineering technical deliverables.
- Responsible for the hardware engineering parts of the sales and R&D cycle (scope, cost, schedule definition).
- Provide regular and timely reports on the performance of the department to the relevant stakeholders.
- Supporting the electrical team in troubleshooting complex problems and expert advice.
- Champions technical improvements in the department and set the appropriate, standards and procedures.
- In charge of the strategic resource planning and development of the team.
- Establish a strategic partnership with key suppliers.

### Your Profile:

- A bachelor's or master's degree in Electrical Engineering, Industrial Automation or equivalent.
- At least 3 years of management experience in a similar position.
- Good communication skills in English and Dutch.
- Working experience with I/O systems, power circuits (both low and high voltage), power distribution and safety regulations.
- Working experience with the Siemens product lines is an asset.
- Willingness and ability to regularly travel for business.

### We Offer:

- An interesting opportunity within a small, dedicated team in a high-tech environment.
- An open cooperative working environment that offers a good work-life balance and a path for personal development.
- Good work conditions, including a 38h working week, flexible start and finish times and a competitive salary.
