

Ansett Aviation Training and AMST Sign Contract for Airbus A320 CEO/NEO Std. 2.1 FFS in Dubai

Dubai/Nieuw-Venep, March 2024 – Ansett Aviation Training and AMST have signed a contract for an AMST AIRFOX Level D Full Flight Simulator (FFS) for Airbus A320 CEO/NEO Std. 2.1. Ready-for-Training date will be in Q3 2024. The signing ceremony was held at Ansett Aviation Training's Dubai Training Centre on 29 January 2024, marking a significant expansion of their training capabilities in the Middle East.

Mark Delany, CEO of Ansett Aviation Training, and Rainer Schluesselberger, Managing Director of AMST formalised the contract in attendance of Khaled Hares, Manager of Ansett's Dubai Training Centre, and Marijn Laagewaard, AMST Sales Director EMEA.

Mark Delany commented on the partnership, saying: "We are looking forward to deploying the AMST A320 into our Dubai centre to support our growing regional customer base. The AMST device incorporates the latest technology to ensure the best possible customer training outcomes. The timely availability to deploy the simulator was essential to support our growth plans for Dubai and we are looking forward to working with the experienced team at AMST".

Rainer Schluesselberger added: "At AMST, we are dedicated to advancing aviation training technology, always focusing on addressing our customers' needs. We take great satisfaction in being able to quickly provide the A320 FFS to Ansett Aviation Training's Dubai facility. This project not only showcases our ability to efficiently execute and deliver on complex training solutions but also reflects our dedication to supporting the dynamic and growing needs of the global aviation industry, particularly in strategic regions like the Middle East".

The introduction of the AMST A320 FFS at Ansett's Dubai facility, which currently houses an ATR72-600 simulator, marks an important significant expansion of their operations. This move is particularly strategic given the Middle East's status as one of the fastest-growing airline markets and Dubai's prominence as a global aviation hub.

About Ansett Aviation Training

Ansett Aviation Training is one of the world's leading independent providers of aviation training services that has continued to build on its world leading reputation with the recent expansion into Dubai to join our global network of Training Centres in Australia, Italy and Taiwan currently supporting 27 Full Flight Simulators.

About AMST

For four decades, AMST has been offering its customers outstanding solutions in the fields of simulation and aerospace medicine. It is a technological leader in relevant key areas. The product portfolio ranges from human centrifuges, pressure chambers and spatial disorientation trainers to highly immersive full flight simulators with a best-in-class image generator as well as complex training environments for realistic night vision and search and rescue training. Many of the solutions developed by AMST are unique. All products come with a comprehensive service package. In addition to reliable technical support over the entire product lifecycle, this also includes services such as the design of and construction support for turnkey training centers.
