

# AMST Wins Contract for A320 Full Flight Simulator

## Romanian Aviation Academy Awards Contract for A320 AIRFOX FFS to AMST

**Nieuw-Venep, May 2025** – AMST will deliver an A320 CEO/NEO Std 2.1 Full Flight Simulator to Romanian Aviation Academy (Scola Superioară de Aviație Civil, RAA) in Bucharest.

"We are honored to have been selected by Romanian Aviation Academy to provide our state-of-the-art AIRFOX A320 Full Flight Simulator," said Rainer Schlüsselberger, Managing Director of AMST. "Our commitment to excellence in flight simulation and customer service ensures that pilots receive the highest level of training, and we look forward to a successful partnership."

"Through this strategic investment, we consolidate our position as a leader in professional training in the field of civil aviation and reaffirm our commitment to excellence in education. The simulator will become a central element in the training programs offered by Romanian Aviation Academy, allowing the development of advanced skills for future commercial aviation pilots, as well as for those already active, through their recurrent training. It will also support the institution's capacity to train pilots to European and international standards" said Stefan Marinescu, General Manager of RAA.

RAA chose AMST through a competitive tender process, recognizing the superior quality and reliability of AMST's simulation solutions. This new simulator will play a critical role in enhancing the academy's training programs, providing pilots with a realistic and immersive experience.

### About AMST

*For four decades, AMST has been offering its customers outstanding solutions in the fields of simulation and aerospace medicine. It is a technological leader in relevant key areas. The product portfolio ranges from human centrifuges, pressure chambers and spatial disorientation trainers to highly immersive full flight simulators with a best-in-class image generator as well as complex training environments for realistic night vision and search and rescue training. Many of the solutions developed by AMST are unique. All products come with a comprehensive service package. In addition to reliable technical support over the entire product lifecycle, this also includes services such as the design of and construction support for turnkey training centers.*
